The County of Santa Barbara is providing this information as a public service and does not warrant, guarantee, or accept any liability for the accuracy or completeness of any information contained on these drainage facility maps. The County of Santa Barbara does not assume liability for damages incurred directly or indirectly as a result of errors, omissions, or discrepancies in such information.

These drainage facility maps are based on the best available information at the time of their production. Some facilities have been verified in the field, while others have been derived from plans and drawings.

These drainage facility maps portray the most information possible while maintaining their readability. More data for many of these drainage facilities is available in the Geographical Information System (GIS) at the County of Santa Barbara's Water Resources Division.
